Professional Profile

Microsoft Certified Azure Administrator Associate and Network Engineering graduate with hands-on experience gained through three internships in enterprise infrastructure, systems administration, networking, cloud administration, and technical support. Experienced in designing and deploying Windows Server and Azure environments, including Active Directory, Microsoft Entra ID, Microsoft 365 services, and Azure App Service with Load Balancer. Currently expanding expertise in DevOps while building on a strong infrastructure foundation.

Education

The German University in Cairo

Sep 2020 – May 2025

Bachelor of Science (BSc) Networks, Information Engineering and Technology: A (1.25)

Cairo, Egypt

– Bachelor Thesis: *Real-time heterogeneous data integration into a knowledge graph* sponsored by Dell Technologies (A+).

IGCSE Graduate

Sep 2017 – Jan 2020

*Total GPA: A**

Cairo, Egypt

Certifications

Microsoft Certified: Azure Administrator Associate (AZ-104)

Experience

National Telecommunication Institute (NTI)

Oct 2025 – Feb 2026

Microsoft Infrastructure & Cloud Computing Trainee

Nasr City, Egypt

- **Training Modules:** MCSA (20740C: Installation, Storage and Compute with Windows Server 2016; 20741B: Networking with Windows Server 2016; 20742B: Identity with Windows Server 2016), Microsoft Azure (AZ-900, AZ-500, AZ-700), and Windows Server Hybrid Infrastructure (AZ-800).
- **Projects:** Built on-premises Windows Server and Azure cloud environments, integrated through Microsoft Entra Connect synchronization in a hybrid architecture.

AKAM Developments

Jul 2024 – Aug 2024

IT & Network Management Intern

New Cairo, Egypt

- Supported network administration, Active Directory management, IT asset management, helpdesk, VPN, firewalls, and cybersecurity operations.

SWVL

Jul 2023 – Sep 2023

IT Engineer Intern

Maadi, Egypt

- Assisted in network configuration, troubleshooting, asset management, backups, and technical support.

Projects

Cloud Engineering: Completed a Deloitte cloud infrastructure case study.

Network Security: Implemented RSA-based secure communication.

Communication Networks: Simulated client-server architecture with network troubleshooting.

Signal and Noise: Developed NetSentry network traffic analysis using Python. — GitHub

Technical Skills

Infrastructure: Windows Server, Active Directory, Microsoft Entra ID, VMware ESXi/vSphere, Red Hat Enterprise Linux

Cloud: Microsoft Azure, Hybrid Infrastructure, Identity & Access Management

Networking: CCNA, TCP/IP, Routing & Switching, VLANs, VPN, Firewalls, Network Troubleshooting

Scripting & Tools: Python, Bash, Git, Docker

Leadership / Extracurricular

Core Vice President

Sep 2024 – May 2025

Athar GUC, Cairo

- Awarded “Most Dedicated Vice President” for leadership and contribution to community projects.
